The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

NOT AS HE EXPRESSED THEM

Teamster's Words Would Have Required Adjustment Before Their Use in the Pulpit.

A man was brought before a police court charged with abusing his team and using loud and profane language on the street. One of the witnesses was a pious old lady, who was submitted to a short cross-examination.

"Did the defendant use improper language while he was beating his horses?" asked the lawyer.

"Well, he talk mighty loud, suh."

"Did he indulge in profanity?"

The witness seemed puzzled. The lawyer put the question in another form:

"What I mean, Uncle Aus, is—did he use words that would be proper for your minister to use in a sermon?"

"Oh, yes suh," the old man replied with a grin that revealed the full width of his immense mouth; "but dey'd have to be 'ranged diff'unt."—Everybody's Magazine.

Just as He Had Said.

"You remember selling me some hair-restorer when I called the other day to get shaved, you hoary-headed old thief?" roared the indignant customer.

"You sold it under false pretenses, sir. You said it would restore my head to its original condition."

"Well, didn't it work?" asked the barber.

"Work? No. It's taken off what little hair I used to have, and I am as bald as the pavement now."

"That's quite right, sir. No false pretense about that. I said it would restore your head to its original condition, and you know, sir, most of us are born bald."

One of the compensations of life is that a man can't study himself through a microscope.

Assisting Ambition

Men of ambition—with the desire to forge ahead—need revitalizing food to help them to compel success.

Grape-Nuts

is a success food. It is made from whole wheat and malted barley and, pound for pound, contains far more "go" and "get there" than ordinary foods.

It retains all the nutriment of the grains, including their natural mineral salts—Phosphate of Potash, etc., often lacking in ordinary food, but essential to thorough upbuilding of sinew, brain and nerves.

Grape-Nuts is partially pre-digested and agrees with all. It's the ideal vigor-food for child and adult.

HANDICRAFT FOR BOYS AND GIRLS

By A. NEELY HALL and DOROTHY PERKINS

(Copyright, by A. Neely Hall)

FOR BACK-YARD CAMPING.

We cannot all go camping in the woods, but there is opportunity for every one of you boys to build a camp in the back yard or a nearby lot.

Best of all, the near-to-home camp requires no equipment other than what you can prepare with materials that can be picked up around home. There is the tepee shown in Fig. 1, for example, made of clothes poles, clothes line and old pieces of cloth. You can likely borrow four clothes poles for the purpose, as you will in no way destroy them. Stand these poles on the ground with their lower ends spread five or six feet apart, and their upper ends crossed as shown in Fig. 2. Then, taking pieces of clothes

A DOLL'S TEETER, MERRY-GO-ROUND AND FERRIS WHEEL.

The teeter (Fig. 1) requires a stick 24 or 30 inches long and two inches wide, for the teeter board (A, Fig. 2), two short sticks for supports (B, Fig. 1), a spool bearing for the top of each upright (C), and a berry box for each end of the teeter board.

Locate the center of the length of stick A, upon each edge, and then drive a nail into both edges at this point (D, Fig. 2). Drive uprights B into the ground three inches apart.

then, after slipping spools C over nails D, bind them to the tops of uprights B.

The form of merry-go-round shown in Fig. 5 is sometimes called the "flying airships." The toy requires four sticks about 24 inches long for cross arms (A, Fig. 5), a spool for a hub (B), a stick 24 inches long for a center upright (C), four berry boxes for cars, and some string and nails.

First bind a pair of the cross-arm sticks A to the sides of the spool (Fig. 6), placing the spool at the exact center of the length of the sticks, and wrapping the string tightly around the sticks so the spool cannot turn. Then cross these sticks with the other pair, and bind this second pair securely to the first, as shown in Fig. 6.

Drive a nail into the end of each cross arm. Then, after driving the center stick C several inches into the ground, pivot the spool hub to its top with a nail.

For the Ferris wheel shown in Fig. 7 you will need four sticks 30 inches long for cross arms (A), two sticks 24 inches long for supports (B), a pair of spools for bearings (C), four sticks ten inches long for connecting braces (D) and four berry boxes.

Cross the sticks A at their exact centers, in pairs, and drive a nail through the exact center, as shown in Fig. 8. Use a long enough nail so the point will project about one inch and one half, as shown at E. To keep the sticks at right angles, bind their centers with string passed diagonally around them as shown in Fig. 7. On the face opposite to that on which nail E projects, drive 2-inch nails into the cross arms near their ends, as shown in Fig. 8, on which to hang the cars.

Then, after driving the supports B into the ground about ten inches apart, bind the spool bearings C to their tops, slip the nail E of the cross arms into spools C, and brace the framework by binding the strips D to them as shown in Fig. 7. After the braces have been put on, all that remains to complete the Ferris wheel is cutting of holes through opposite sides of the berry boxes, large enough for the nails. The ends of cross arms A to slip through.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a

spoonful and if it doesn't straighten you right up and make you feel tho and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real medicine; entirely vegetable, therefore it cannot salfate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

And another of the girls answered, oh, so sweetly:

"Oh, that's after they have heard you talk, isn't it, dear?"
